

TANKHERO ACID CLEANER

DESCRIPTION

TANKHERO Acid Cleaner is a nitric/sulphuric acid solution formulated to remove mineral deposits and soil residue on equipment surfaces.

PRODUCT INFORMATION

TANKHERO Acid Cleaner is safe for use on beverage industry equipment and materials when applied using the recommended conditions and procedures. This product is suitable for use with Clean-in-place (CIP) systems and should be used on clean equipment. The concentration, temperature and contact time are application specific. If uncertain about product application, please contact ClearTech before use of chemicals. Dispose of contents/container in accordance with all federal, provincial, and/or local regulations including the Canadian Environmental Protection Act.

CIP INSTRUCTIONS

1. Use 40-60 mL of TANKHERO Acid Cleaner per 1L of water.
2. Circulate mixture for 30 minutes at 50°C.
3. After cleaning, rinse with potable water to remove all remaining residue.

MATERIAL COMPATIBILITY

Metal: 304 & 316 stainless steel. Avoid prolonged exposure on all metal surfaces.

Plastic: acid-resistant plastics (PE, PP, PTFE, PVC, PVDF, EPDM, FKM).

TECHNICAL DATA

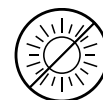

Specific Gravity: ~1.21 g/mL @ 20 °C

pH: <1.0

SAFETY AND STORAGE

Wear proper PPE when handling.

Store in sealed containers away from extreme temperatures

Consult SDS for detailed information.

CFIA COMPLIANCE

This product is safe for its intended purpose when used in accordance with the instructions. The statements, information, and data presented in this document are reliable and accurate. ClearTech cannot control product use and application therefore performance may vary subject to the operational conditions.
