

Section 01 Identification

Product Identifier Hydrochloric Acid 1-9% Solution

Hydrochloric Acid 3.5% Hydrochloric Acid 4% Hydrochloric Acid 6% Hydrochloric Acid 9%

Other Means of Identification Aqueous hydrogen chloride, muriatic acid, hydrogen chloride, HCI, chlorohydric acid.

Product Use and Restrictions Acidizing (activation) of petroleum wells, scale removal, ore reduction, metal cleaning, pH

on Use

Initial Supplier Identifier ClearTech Industries Inc

1500 Quebec Avenue Saskatoon, SK. Canada

S7K 1V7

Phone: 800.387.7503 Fax: 888.281.8109 www.cleartech.ca

Prepared By ClearTech Industries Inc. technical writer

24-Hour Emergency Phone 306.664.2522

Section 02 Hazard Identification

Physical Hazards

This product does not qualify for any physical hazard class under WHMIS 2015

Health Hazards

Serious eye damage / eye

irritation

Category 1

Signal Word

Danger

Hazard Statements

H318 Causes serious eye damage.

P260 Do not breathe vapours, fumes, or mists.

P264 Wash affected body parts thoroughly after handling.

P280 Wear, eye protection, face protection

Response

P304 P340 P310 IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a

POISON CENTER or doctor.

P305 P351 P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present

P310 and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor.

Section 03 Composition / Information on Ingredients

Hazardous Ingredients:

Chemical name Common name(s) CAS number Concentration (w/w%)

Hydrogen Chloride Hydrochloric Acid 7647-01-0 1-9%

Section 04 First-Aid Measures

Description of necessary first-aid measures

Inhalation Get medical advice / attention if you feel unwell or are concerned.

Ingestion Get medical advice / attention if you feel unwell or are concerned.

Skin Rinse skin with lukewarm, gently flowing water / shower for 5 minutes or until product is removed. If skin

contact irritation occurs or if you feel unwell: Get medical advice / attention.

Eye Remove source of exposure or move person to fresh air. Rinse eyes cautiously with lukewarm, gently flowing contact water for several minutes, while holding the eyelids open. Remove contact lenses, if present and easy to do.

Continue rinsing for 30 minutes. Take care not to rinse contaminated water into the unaffected eye or onto the

face. Immediately call a POISON CENTER or doctor.

Most important symptoms and effects, both acute and delayed

Inhalation May cause respiratory irritation. Ingestion May cause discomfort or nausea. Skin contact May cause transient irritation. Eye contact Causes serious eye damage.

Further information For further information see Section 11 Toxicological Information.

Section 05 Fire Fighting Measures

Suitable extinguishing media Extinguish fire using extinguishing agents suitable for the surrounding fire.

Unsuitable extinguishing

media

Water jets are not recommended in fires involving chemicals.

Specific hazards arising from

the chemical

Reacts with many metals to liberate hydrogen gas that can form explosive mixtures. Heat may liberate corrosive and toxic Hydrogen Chloride gas. Hydrogen Chloride is denser than air and will accumulate in low lying areas.

Customer Service: 800.387.7503 www.cleartech.ca Emergency: 306.664.2522 Revision Date: December 06, 2021

Special protective equipment for fire-fighters

Wear NIOSH-approved self-contained breathing apparatus and chemical-protective clothing.

Section 06 Accidental Release Measures

Personal Precautions / **Protective Equipment / Emergency Procedures** Wear appropriate personal protective equipment (See Section 08 Exposure Controls and Personal Protection). Stay upwind, ventilate area. Do not breathe vapours, fumes, or mists.

Environmental Precautions

Prevent material from entering waterways, sewers or confined spaces. Notify local health

and wildlife officials. Notify operators of nearby water intakes.

Methods and Materials for Containment and Cleaning Up

SMALL SPILLS: Stop or reduce leak if safe to do so. Clean up spill with non-reactive absorbent and place in suitable, covered, labeled containers. Flush area with water. Contaminated absorbent material may pose the same hazards as the spilled product. LARGE SPILLS: Contact fire and emergency services and supplier for advice.

Section 07 Handling and Storage

Precautions for Safe Handling Use proper equipment for lifting and transporting all containers. Use sensible industrial hygiene and housekeeping practices. Wash thoroughly after handling. Avoid all situations that could lead to harmful exposure. Prevent the release of vapours, fumes, or mists into

the workplace air.

Inspect containers for damage or leaks before handling. If the original label is damaged or missing replace with a workplace label. Have suitable emergency equipment for fires, spills and leaks readily available.

Never return contaminated material to its original container.

Conditions for Safe Storage

Store in a cool, dry, well-ventilated area, away from heat sources and incompatible materials. Always store in original labeled container. Keep containers tightly closed when not in use and when empty. Empty containers may contain hazardous residues. Protect label and keep it visible.

Incompatibilities

Bases, such as potassium hydroxide, sodium hydroxide, calcium hydroxide (slaked lime), ammonia, carbonates.

Metals, such as aluminum, steel, and brass.

Section 08 Exposure Controls and Personal Protection

Exposure limits

Component Regulation Type of listing Value Hydrogen Chloride **ACGIH TLV-Ceiling** 2 ppm

Engineering controls

Ventilation Requirements Mechanical ventilation (dilution or local exhaust), process or personnel enclosure and

> control of process conditions should be provided in accordance with all fire codes and regulatory requirements. Supply sufficient replacement air to make up for air removed by

exhaust systems.

Other A soak hose and eyewash station or emergency shower and eyewash station should be

available, tested, and be in close proximity to the product being handled in accordance with

provincial regulations.

Protective equipment

The following are recommendations only. It is the responsibility of the employer / user to conduct a hazard assessment of the process in which this product being used and determine the proper engineering controls and PPE for their process. Additional regulatory and safety information should be sought from local authorities and, if needed, a professional industrial hygienist.

Customer Service: 800.387.7503 www.cleartech.ca Emergency: 306.664.2522 Revision Date: December 06, 2021

Page 3 of 8

Eye and face protection

Where there is potential eye or face exposure, tightly fitting safety goggles and a face shield or a full face respirator or similar protective equipment which protects the wearer's face and eyes are recommended. Contact lenses are not recommended; they may contribute to severe eye injury.

Hand and body protection Respiratory protection

Where handling this product it is recommended that skin contact is avoided.

In case of insufficient ventilation wear suitable respiratory equipment.

NIOSH respirator recommendations for: Hydrogen Chloride

Up to: 50 ppm

(APF = 10) Any chemical cartridge respirator with cartridge(s) providing protection against Hydrogen Chloride

(APF = 10) Any supplied-air respirator

(APF = 25) Any powered, air-purifying respirator with cartridge(s) providing protection against Hydrogen Chloride

(APF = 50) Any air-purifying, full-facepiece respirator (gas mask) with a chin-style, front- or back-mounted canister providing protection against Hydrogen Chloride (APF = 50) Any self-contained breathing apparatus with a full facepiece.

Emergency or planned entry into unknown concentrations or IDLH conditions:

(APF = 10,000) Any self-contained breathing apparatus that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode

(APF = 10,000) Any supplied-air respirator that has a full facepiece and is operated in a pressure-demand or other positive-pressure mode in combination with an auxiliary selfcontained positive-pressure breathing apparatus

Escape:

(APF = 50) Any air-purifying, full-facepiece respirator (gas mask) with a chin-style, front- or back-mounted canister providing protection against Hydrogen Chloride Any appropriate escape-type, self-contained breathing apparatus

Section 10 Stability and Reactivity

Reactivity Reacts with many metals to liberate hydrogen gas that can form explosive mixtures.

Reacts violently with bases.

This product is stable if stored according to the recommendations in Section 07. Stability

Possibility of hazardous

reactions

Hazardous polymerization is not known to occur.

Conditions to avoid Avoid contact with incompatible materials.

Incompatible materials Bases, such as potassium hydroxide, sodium hydroxide, calcium hydroxide (slaked lime),

ammonia, carbonates.

Metals, such as aluminum, steel, and brass.

Hazardous decomposition

Section 11 Toxicological Information

Acute Toxicity (LD50 / LC50 values)

Component	Route	Species	Value	Exposure time
Hydrogen Chloride	Oral	Rat	238-277 mg/kg	
	Dermal	Mouse	1449 mg/kg	
	Inhalation (gas)	Mouse	1108 ppm	1 hour
	Inhalation (mist)	Guinea pig	2.0 mg/L	30 minutes

Toxic Health Effect Summary

Chemical Hydrogen chloride rapidly dissociates and most of it's toxic effects are thought to be the result of pH

characteristics change.

Skin May cause transient irritation. Ingestion May cause discomfort or nausea. Inhalation May cause respiratory irritation. Eye contact Causes serious eye damage.

Safety Data Sheet

Sensitization This product and its components at their listed concentration have no known sensitizing effects.

Mutagenicity This product and its components at their listed concentration have no known mutagenic effects.

Carcinogenicity IARC has classified hydrochloric acid as group 3, not classifiable as to its carcinogenicity to humans.

Reproductive toxicity

This product and its components at their listed concentration have no known reproductive effects.

Specific organ toxicity

Frequent contact may lead to dermatitus. Dental decay, with changes in tooth structure, yellowing, softening and breaking of teeth, and related digestive diseases are frequent after exposures to

hydrochloric acid

Aspiration hazard

Not available Not available

Synergistic materials

Section 12 Ecological Information

Ecotoxicity

Component	Type	Species	Value	Exposure Time
Hydrogen Chloride	LC50	Freshwater fish	20.5 mg/L	96 hours
	EC50	Freshwater invertabrates	0.45 mg/L	48 hours
	EC50	Freshwater algae	0.73 mg/L	72 hours

Biodegradability The domestic substance list categorizes hydrochloric acid as persistent.

Bioaccumulation The domestic substance list categorizes hydrochloric acid as non-bioaccumulative.

Mobility This product is water soluble, is not predicted to adsorb to soil and may contaminate ground

water. This product will evaporate and may be spread via wind.

Not available Other adverse effects

Section 13 Disposal Considerations

Waste From Residues /

Unused Products

Dispose in accordance with all federal, provincial, and local regulations including the

Canadian Environmental Protection Act.

Contaminated Packaging

Do not remove label, follow label warnings even after the container is empty. Empty containers should be recycled or disposed of at an approved waste handling facility.

Section 14 Transport Information

UN number UN1789

UN proper shipping name

and description

HYDROCHLORIC ACID

Transport hazard class(es) 8 Packing group Ш **Excepted quantities**

Environmental hazards

Not listed as a marine pollutant under Canadian TDG Regulations, schedule III.

No special provisions Special precautions Transport in bulk ERAP index: 3000 L

MARPOL 73/78 and IBC Code:

Customer Service: 800.387.7503 www.cleartech.ca Emergency: 306.664.2522

Revision Date: December 06, 2021

Product name: Hydrochloric Acid

Pollution category: Z

the product is included in the Code because of both its safety

and pollution hazards.

Ship type: ship type 3

Tank type: independent gravity tank

Tank vents: controlled venting

Tank environmental control: no special requirements under this Code

Temperature classes

Electrical equipment: Apparatus group

Flash point non-flammable product

Gauging: restricted gauging Vapour detection: toxic vapours

Fire protection: no special requirements under this Code

Emergency equipment see 14.3.1

Specific and operational 15.11 requirements

Additional information

Secure containers (full or empty) during shipment and ensure all caps, valves, or closures are secured in the closed position.

TDG PRODUCT CLASSIFICATION: This product has been classified on the preparation date specified at section 16 of this SDS, for transportation in accordance with the requirements of part 2 of the Transportation of Dangerous Goods Regulations. If applicable, testing and published test data regarding the classification of this product are listed in the references at section 16 of this SDS.

Section 15 Regulatory Information.

NOTE: THE PRODUCT LISTED ON THIS SAFETY DATA SHEET HAS BEEN CLASSIFIED IN ACCORDANCE WITH THE HAZARD CRITERIA OF THE CANADIAN HAZARDOUS PRODUCTS REGULATIONS. THIS SAFETY DATA SHEET CONTAINS ALL INFORMATION REQUIRED BY THOSE REGULATIONS.

All components of this product appear on the domestic substance list.

Hydrochloric Acid (>1%) is listed in the National Pollutant Release Inventory (NPRI). Reporting threshold: 10 tonnes manufactured, processed or otherwise used.

Section 16 Other Information

Date of latest revision: December 06, 2021

Note: The responsibility to provide a safe workplace remains with the buyer / user. The buyer / user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the buyer / user to comply with all applicable laws and regulations regarding handling, using, reselling and shipping this product.

Attention: Receiver of the chemical goods / SDS coordinator

As part of our commitment to the RDC Responsible Distribution® initiative, ClearTech Industries Inc. and its associated companies require, as a condition of sale, that you forward the attached Safety Data Sheet(s) to all affected employees, customers, and end-users. ClearTech will send any available supplementary handling, health, and safety information to you at your request.

If you have any questions or concerns please call our customer service center.
